

DMBA Focus Formulary

This formulary lists prescription medication that may be covered by Deseret Choice Hawaii, Deseret Premier, Deseret Select, and Deseret Value. For assistance finding a specific medication not on this list, please use the [Formulary Lookup Tool](#) or call Magellan Customer Service at (800) 424-1799.

Tier Information

T1	Tier 1 drugs are low-cost preferred medications. This tier may include generic, single-source brand drugs, or multisource brand drugs. Cost sharing applies to Tier 1 drugs.
T2	Tier 2 drugs are moderate-cost preferred medications. This tier may include generic, single-source, or multi-source brand drugs. Cost sharing applies to Tier 2 drugs.
T3	Tier 3 drugs are non-preferred medications, and the plan does not cover any portion of the cost for Tier 3 drugs. However, Tier 3 drugs may be eligible for a network discount through contracted pharmacies. Because the plan does not pay for Tier 3 drugs, your out-of-pocket costs will be higher and many Tier 3 drugs have lower-cost options in Tier 1 or 2. This tier may include generic, single-source brand drugs, or multi-source brands drugs.
T4	Tier 4 drugs are high-cost specialty medications. This tier may include generic, single-source brand drugs, or multi-source brands drugs. Cost sharing applies to Tier 4 drugs.

Drug List Information

In this drug list, some medications are marked with a letter code that indicates potential coverage requirements or limits. Your benefit plan determines how these medications may be covered.

PA	Prior Authorization – You or your provider must get prior authorization before you fill your prescription, which ensures appropriate use of the selected drug. Without prior approval, the plan does not cover this drug.
QL	Quantity Limit - There is a limit on the amount of this drug covered per prescription, or within a specific time period.
ST	Step Therapy - In some cases, you may be required to try certain drugs to treat your medical condition before you move up a “step” to other drug options.
AL	Age Limit - This drug may be covered only if you meet the minimum or maximum age.
GL	Gender Limit - This drug is restricted for use by a single gender.
C	Custom - This drug has unique restrictions.
Med PA	Medical Pharmacy, Prior Authorization – This drug may be available on the medical benefit after prior authorization.

Where differences exist between this formulary and your benefit plan documents, the benefit plan documents govern.
