

TIER		DESCRIPTION
1	Generics	
2	Preferred Brands	
3	Non-Preferred Brands	
TYPE		DESCRIPTION
QL	Quantity Limit	There is a limit on the amount of this drug that is covered per prescription, or within a specific time frame.
ST	Step Therapy	In some cases, you may be required to first try certain drugs to treat your medical condition before you move up a “step” to other drug options.
S	Specialty Drug	Specialty drugs are high-cost drugs used to treat complex or rare conditions. Some examples of the diseases include; multiple sclerosis, rheumatoid arthritis, hepatitis C, and hemophilia.
PR	Preventive Medication	Preventive health drugs can help prevent, treat, and manage several health concerns that can lead to serious illness or complications in the future. The copays for these products may vary so check with your plan for further information.
HCR	Health Care Reform Products	The Affordable Care Act (ACA) requires certain preventive generic products to be covered at zero dollar copay. This does not include plans that are grandfathered.
PA	PA Applies	Your provider is required to get prior authorization before you fill your prescription, which ensures appropriate use of the selected drug. Without prior approval, we may not cover this drug.
OPD	Quantity Per Day	Quantity Per Day.
B4G	Brand For Generic	Brand products that would bypass the DAW penalty. The strategy prefers brands over generics.
